

Standard Reference Materials

Increase user-efficiency without compromising on quality

The Standard Reference provide both calibration and verification options for laboratory test equipment, all from the same sample, with their values certified to the highest level of accreditation integrity available globally. The multiple test parameters provide a flexible and cost-effective solution for any laboratory.

Soil Reference Standard

Product Description

- Standard Soil sample are specially used for verification plastic liquid limits
- Full traceability to international standards
- 500g Pack Size supplied

Packaging type	Plastic bottle
Packaging size	500g / pack
Purpose	calibration/verification
Form	Solid
Price	Contact us
